Section 301(a) of the Labor Management Relations Act of 1947, 29 U.S.C. § 185(a):

Suits for violation of contracts between an employer and a labor organization representing employees in an industry affecting commerce as defined in this chapter, or between any such labor organizations, may be brought in any district court of the United States having jurisdiction of the parties, without respect to the amount in controversy or without regard to the citizenship of the parties.

Selected Portions of the Omnibus Transportation Employee Testing Act of 1991, Pub. L. No. 102-143, Title V, 105 Stat. 917, 952-965:

[952] **Findings**

Sec. 2. The Congress finds that—

(1) alcohol abuse and illegal drug use pose significant dangers to the safety and welfare of the Nation; [953]

(2) millions of the Nation's citizens utilize transportation by aircraft, railroads, trucks, and buses, and depend on the operators of aircraft, trains, trucks, and buses to perform in a safe and responsible manner;

(3) the greatest efforts must be expended to eliminate the abuse of alcohol and use of illegal drugs, whether on duty or off duty, by those individuals who are involved in the operation of aircraft, trains, trucks, and buses;

(4) the use of alcohol and illegal drugs has been demonstrated to affect significantly the performance of individuals, and has been proven to have been a critical factor in transportation accidents;

(5) the testing of uniformed personnel of the Armed Forces has shown that the most effective deterrent to abuse of

alcohol and use of illegal drugs is increased testing, including random testing;

(6) adequate safeguards can be implemented to ensure that testing for abuse of alcohol or use of illegal drugs is performed in a manner which protects an individual's right of privacy, ensures that no individual is harassed by being treated differently from other individuals, and ensures that no individual's reputation or career development is unduly threatened or harmed; and

(7) rehabilitation is a critical component of any testing program for abuse of alcohol or use of illegal drugs, and should be made available to individuals, as appropriate.

* * *

[959] **Testing To Enhance Motor Carrier Safety**

Sec. 5. (a)(1) The Commercial Motor Vehicle Safety Act of 1986 (49 App. U.S.C. 2701 et seq. [now 49 U.S.C. 31301 et seq.]) is amended by adding at the end the following new section:

"Sec. 12020. Alcohol And Controlled Substances Testing.

"(a) Regulations.—The Secretary shall, in the interest of commercial motor vehicle safety, issue regulations within twelve months after the date of enactment of this section. Such regulations shall establish a program which requires motor carriers to conduct preemployment, reasonable suspicion, random, and post-accident testing of the operators of commercial motor vehicles for use, in violation of law or Federal regulation, of alcohol or a controlled substance. The Secretary may also issue regulations, as the Secretary considers appropriate in the interest of safety, for the conduct of periodic recurring testing of such operators for such use in violation of law or Federal regulation.

"(b) Testing.—

"(1) Post-accident testing.—In issuing such regulations, the Secretary shall require that post-accident testing of the operator of a commercial motor vehicle be conducted in the case of any accident involving a commercial motor vehicle in which occurs loss of human life, or, as determined by the Secretary, other serious accidents involving bodily injury or significant property damage.

"(2) Testing as part of medical examination.—Nothing in subsection (a) of this section shall preclude the Secretary from providing in such regulations that such testing be conducted as part of the medical examination required by subpart E of part 391 of title 49, Code of Federal Regulations, with respect to those operators of commercial motor vehicles to whom such part is applicable.

"(c) Program for Rehabilitation.—The Secretary shall issue regulations setting forth requirements for rehabilitation programs which provide for the identification and opportunity for treatment of operators of commercial motor vehicles who are determined to have used, in violation of law or Federal regulation, alcohol or a controlled substance. The Secretary shall determine the circumstances under which such operators shall be required to participate in such program. Nothing in this subsection shall preclude a motor carrier from establishing a program under this subsection in cooperation with any other motor carrier.

"(d) Procedures for testing.—In establishing the program required under subsection (a) of this section, the Secretary shall develop requirements which shall—

"(1) promote, to the maximum extent practicable, individual privacy in the collection of specimen samples;

"(2) with respect to laboratories and testing procedures for controlled substances, incorporate the Department of Health

and Human Services scientific and technical guidelines dated April 11, 1988, and any subsequent amendments thereto, including mandatory guidelines which—[960]

"(A) establish comprehensive standards for all aspects of laboratory controlled substances testing and laboratory procedures to be applied in carrying out this section, including standards which require the use of the best available technology for ensuring the full reliability and accuracy of controlled substances tests and strict procedures governing the chain of custody of specimen samples collected for controlled substances testing;

"(B) establish the minimum list of controlled substances for which individuals may be tested; and

"(C) establish appropriate standards and procedures for periodic review of laboratories and criteria for certification and revocation of certification of laboratories to perform controlled substances testing in carrying out this section;

"(3) require that all laboratories involved in the testing of any individual under this section shall have the capability and facility, at such laboratory, of performing screening and confirmation tests;

"(4) provide that all tests which indicate the use, in violation of law or Federal regulation, of alcohol or a controlled substance by any individual shall be confirmed by a scientifically recognized method of testing capable of providing quantitative data regarding alcohol or a controlled substance;

"(5) provide that each specimen sample be subdivided, secured, and labelled in the presence of the tested individual and that a portion thereof be retained in a secure manner to prevent the possibility of tampering, so that in the event the individual's confirmation test results are positive the individual has an opportunity to have the retained portion assayed by a confirmation test done independently at a second certified laboratory if the individual requests the independent

test within 3 days after being advised of the results of the confirmation test;

"(6) ensure appropriate safeguards for testing to detect and quantify alcohol in breath and body fluid samples, including urine and blood, through the development of regulations as may be necessary and in consultation with the Department of Health and Human Services;

"(7) provide for the confidentiality of test results and medical information (other than information relating to alcohol or a controlled substance) of employees, except that the provisions of this paragraph shall not preclude the use of test results for the orderly imposition of appropriate sanctions under this section; and

"(8) ensure that employees are selected for tests by nondiscriminatory and impartial methods, so that no employee is harassed by being treated differently from other employees in similar circumstances.

"(e) Effect on Other Laws and Regulations.—

"(1) State and local law and regulations.—No State or local government shall adopt or have in effect any law, rule, regulation, ordinance, standard, or order that is inconsistent with the regulations issued under this section, except that the regulations issued under this section shall not be construed to preempt provisions of State criminal law which impose sanctions for reckless conduct leading to actual loss of life, injury, or damage to property, whether the provisions apply specifically to commercial motor vehicle employees, or to the general public. [961]

"(2) Other regulations issued by secretary.—Nothing in this section shall be construed to restrict the discretion of the Secretary to continue in force, amend, or further supplement any regulations governing the use of alcohol or controlled

substances by commercial motor vehicle employees issued before the date of enactment of this section.

"(3) International obligations.—In issuing regulations under this section, the Secretary shall only establish requirements that are consistent with the international obligations of the United States, and the Secretary shall take into consideration any applicable laws and regulations of foreign countries.

"(f) Application of Penalties.—

"(1) Effect on other penalties.—Nothing in this section shall be construed to supersede any penalty applicable to the operator of a commercial motor vehicle under this title or any other provision of law.

"(2) Determination of sanctions.—The Secretary shall determine appropriate sanctions for commercial motor vehicle operators who are determined, as a result of tests conducted and confirmed under this section, to have used, in violation of law or Federal regulation, alcohol or a controlled substance but are not under the influence of alcohol or a controlled substance, as provided in this title.

"(g) Definition.—For the purposes of this section, the term 'controlled substance' means any substance under section 102(6) of the Controlled Substances Act (21 U.S.C. 802(6)) specified by the Secretary.".

(2) The table of contents of the Commercial Motor Vehicle Safety Act of 1986 (Public Law 99-570; 100 Stat. 5223) is amended by adding at the end thereof the following:

"Sec. 12020. Alcohol and controlled substances testing."

(b)(1) The Secretary of Transportation shall design within nine months after the date of enactment of this Act, and implement within fifteen months after the date of enactment of this Act, a pilot test program for the purpose of testing the

operators of commercial motor vehicles on a random basis to determine whether an operator has used, in violation of law or Federal regulation, alcohol or a controlled substance. The pilot test program shall be administered as part of the Motor Carrier Safety Assistance Program.

(2) The Secretary shall solicit the participation of States which are interested in participating in such program and shall select four States to participate in the program.

(3) The Secretary shall ensure that the States selected pursuant to this subsection are representative of varying geographical and population characteristics of the Nation and that the selection takes into consideration the historical geographical incidence of commercial motor vehicle accidents involving loss of human life.

(4) The pilot program authorized by this subsection shall continue for a period of one year. The Secretary shall consider alternative methodologies for implementing a system of random testing of operators of commercial motor vehicles.

(5) Not later than thirty months after the date of enactment of this Act, the Secretary shall prepare and submit to the Congress a comprehensive report setting forth the results of the pilot program conducted under this subsection. Such report shall include any recommendations of the Secretary concerning the desirability and [962] implementation of a system for the random testing of operators of commercial motor vehicles.

(6) For purposes of carrying out this subsection, there shall be available to the Secretary $5,000,000 from funds made available to carry out section 404 of the Surface Transportation Assistance Act of 1982 (49 App. U.S.C. 2304) for fiscal year 1992.

(7) For purposes of this subsection, the term "commercial motor vehicle" shall have the meaning given to such term in

section 12019(6) of the Commercial Motor Vehicle Safety Act of 1986 (49 App.U.S.C. 2716(6)).

* * *

Selected Portions of Title 49 of the Code of Federal Regulations, Part 382:

PART 382—CONTROLLED SUBSTANCES AND ALCOHOL USE AND TESTING

Subpart A—General

§ 382.101 Purpose

The purpose of this part is to establish programs designed to help prevent accidents and injuries resulting from the misuse of alcohol or use of controlled substances by drivers of commercial motor vehicles.

§ 382.103 Applicability

(a) This part applies to every person and to all employers of such persons who operate a commercial motor vehicle in commerce in any State, and is subject to:

(1) The commercial driver's license requirements of part 383 of this subchapter;

(2) The Licencia Federal de Conductor (Mexico) requirements; or

(3) The commercial driver's license requirements of the Canadian National Safety Code.

(b) An employer who employs himself/herself as a driver must comply with both the requirements in this part that apply to employers and the requirements in this part that apply to drivers. An employer who employs only himself/herself as a driver shall implement a random alcohol and controlled substances testing program of two or more covered employees in the random testing selection pool.

* * *

§ 382.105 Testing Procedures

Each employer shall ensure that all alcohol or controlled substances testing conducted under this part complies with the procedures set forth in part 40 of this title. The provisions of part 40 of this title that address alcohol or controlled substances testing are made applicable to employers by this part.

§ 382.107 Definitions

Words or phrases used in this part are defined in §§ 386.2 and 390.5 of this subchapter, and § 40.3 of this title, except as provided herein—

Alcohol means the intoxicating agent in beverage alcohol, ethyl alcohol, or other low molecular weight alcohols including methyl and isopropyl alcohol.

Alcohol concentration (or content) means the alcohol in a volume of breath expressed in terms of grams of alcohol per 210 liters of breath as indicated by an evidential breath test under this part.

Alcohol use means the consumption of any beverage, mixture, or preparation, including any medication, containing alcohol.

Commerce means:

(1) Any trade, traffic or transportation within the jurisdiction of the United States between a place in a State and a place outside of such State, including a place outside of the United States and

(2) Trade, traffic, and transportation in the United States which affects any trade, traffic, and transportation described in paragraph (1) of this definition.

Commercial motor vehicle means a motor vehicle or combination of motor vehicles used in commerce to transport passengers or property if the motor vehicle—

(1) Has a gross combination weight rating of 11,794 or more kilograms (26,001 or more pounds) inclusive of a towed unit with a gross vehicle weight rating of more than 4,536 kilograms (10,000 pounds); or

(2) Has a gross vehicle weight rating of 11,794 or more kilograms (26,001 or more pounds); or

(3) Is designed to transport 16 or more passengers, including the driver; or

(4) Is of any size and is used in the transportation of materials found to be hazardous for the purposes of the Hazardous Materials Transportation Act and which require the motor vehicle to be placarded under the Hazardous Materials Regulations (49 CFR part 172, subpart F).

Confirmation test for alcohol testing means a second test, following a screening test with a result of 0.02 or greater, that provides quantitative data of alcohol concentration. For controlled substances testing means a second analytical procedure to identify the presence of a specific drug or metabolite which is independent of the screen test and which uses a different technique and chemical principle from that of the screen test in order to ensure reliability and accuracy. (Gas chromatography/mass spectrometry (GC/MS) is the only authorized confirmation method for cocaine, marijuana, opiates, amphetamines, and phencyclidine.)

Consortium means an entity, including a group or association of employers or contractors, that provides alcohol or controlled substances testing as required by this part, or other DOT alcohol or controlled substances testing rules, and that acts on behalf of the employers.

Controlled substances mean those substances identified in § 40.21(a) of this title.

Disabling damage means damage which precludes departure of a motor vehicle from the scene of the accident in its usual manner in daylight after simple repairs.

(1) *Inclusions.* Damage to motor vehicles that could have been driven, but would have been further damaged if so driven.

(2) *Exclusions.*

(i) Damage which can be remedied temporarily at the scene of the accident without special tools or parts.

(ii) Tire disablement without other damage even if no spare tire is available.

(iii) Headlight or taillight damage.

(iv) Damage to turn signals, horn, or windshield wipers which make them inoperative.

DOT Agency means an agency (or "operating administration") of the United States Department of Transportation administering regulations requiring alcohol and/or drug testing (14 CFR parts 61, 63, 65, 121, and 135; 49 CFR parts 199, 219, 382, 653 and 654), in accordance with part 40 of this title.

Driver means any person who operates a commercial motor vehicle. This includes, but is not limited to: Full time, regularly employed drivers; casual, intermittent or occasional drivers; leased drivers and independent, owner-operator contractors who are either directly employed by or under lease to an employer or who operate a commercial motor vehicle at the direction of or with the consent of an employer.

Employer means any person (including the United States, a State, District of Columbia, tribal government, or a political

subdivision of a State) who owns or leases a commercial motor vehicle or assigns persons to operate such a vehicle. The term *employer* includes an employer's agents, officers and representatives.

Licensed medical practitioner means a person who is licensed, certified, and/or registered, in accordance with applicable Federal, State, local, or foreign laws and regulations, to prescribe controlled substances and other drugs.

Performing (a safety-sensitive function) means a driver is considered to be performing a safety-sensitive function during any period in which he or she is actually performing, ready to perform, or immediately available to perform any safety-sensitive functions.

Positive rate means the number of positive results for random controlled substances tests conducted under this part plus the number of refusals of random controlled substances tests required by this part, divided by the total of random controlled substances tests conducted under this part plus the number of refusals of random tests required by this part.

Refuse to submit (to an alcohol or controlled substances test) means that a driver:

(1) Fails to provide adequate breath for alcohol testing as required by part 40 of this title, without a valid medical explanation, after he or she has received notice of the requirement for breath testing in accordance with the provisions of this part,

(2) Fails to provide an adequate urine sample for controlled substances testing as required by part 40 of this title, without a genuine inability to provide a specimen (as determined by a medical evaluation), after he or she has received notice of the requirement for urine testing in accordance with the provisions of this part, or

(3) Engages in conduct that clearly obstructs the testing process.

Safety-sensitive function means all time from the time a driver begins to work or is required to be in readiness to work until the time he/she is relieved from work and all responsibility for performing work. Safety-sensitive functions shall include:

(1) All time at an employer or shipper plant, terminal, facility, or other property, or on any public property, waiting to be dispatched, unless the driver has been relieved from duty by the employer;

(2) All time inspecting equipment as required by §§ 392.7 and 392.8 of this subchapter or otherwise inspecting, servicing, or conditioning any commercial motor vehicle at any time;

(3) All time spent at the driving controls of a commercial motor vehicle in operation;

(4) All time, other than driving time, in or upon any commercial motor vehicle except time spent resting in a sleeper berth (a berth conforming to the requirements of § 393.76 of this subchapter);

(5) All time loading or unloading a vehicle, supervising, or assisting in the loading or unloading, attending a vehicle being loaded or unloaded, remaining in readiness to operate the vehicle, or in giving or receiving receipts for shipments loaded or unloaded; and

(6) All time repairing, obtaining assistance, or remaining in attendance upon a disabled vehicle.

Screening test (also known as initial test) In alcohol testing, it means an analytical procedure to determine whether a driver may have a prohibited concentration of alcohol in his or her system. In controlled substance testing, it means an

immunoassay screen to eliminate "negative" urine specimens from further consideration.

Violation rate means the number of drivers (as reported under § 382.305 of this part) found during random tests given under this part to have an alcohol concentration of 0.04 or greater, plus the number of drivers who refuse a random test required by this part, divided by the total reported number of drivers in the industry given random alcohol tests under this part plus the total reported number of drivers in the industry who refuse a random test required by this part.

§ 382.109 Preemption of State and local laws

(a) Except as provided in paragraph (b) of this section, this part preempts any State or local law, rule, regulation, or order to the extent that:

(1) Compliance with both the State or local requirement and this part is not possible; or

(2) Compliance with the State or local requirement is an obstacle to the accomplishment and execution of any requirement in this part.

(b) This part shall not be construed to preempt provisions of State criminal law that impose sanctions for reckless conduct leading to actual loss of life, injury, or damage to property, whether the provisions apply specifically to transportation employees, employers, or the general public.

§ 382.111 Other requirements imposed by employers

Except as expressly provided in this part, nothing in this part shall be construed to affect the authority of employers, or the rights of drivers, with respect to the use of alcohol, or the use of controlled substances, including authority and rights with respect to testing and rehabilitation.

§ 382.113 Requirements for notice

Before performing an alcohol or controlled substances test under this part, each employer shall notify a driver that the alcohol or controlled substances test is required by this part. No employer shall falsely represent that a test is administered under this part.

* * *

Subpart B—Prohibitions

§ 382.201 Alcohol concentration

No driver shall report for duty or remain on duty requiring the performance of safety-sensitive functions while having an alcohol concentration of 0.04 or greater. No employer having actual knowledge that a driver has an alcohol concentration of 0.04 or greater shall permit the driver to perform or continue to perform safety-sensitive functions.

§ 382.205 On-duty use

No driver shall use alcohol while performing safety-sensitive functions. No employer having actual knowledge that a driver is using alcohol while performing safety-sensitive functions shall permit the driver to perform or continue to perform safety-sensitive functions.

§ 382.207 Pre-duty use

No driver shall perform safety-sensitive functions within four hours after using alcohol. No employer having actual knowledge that a driver has used alcohol within four hours shall permit a driver to perform or continue to perform safety-sensitive functions.

§ 382.209 Use following an accident

No driver required to take a post-accident alcohol test under § 382.303 of this part shall use alcohol for eight hours

following the accident, or until he/she undergoes a post-accident alcohol test, whichever occurs first.

§ 382.211 Refusal to submit to a required alcohol or controlled substances test

No driver shall refuse to submit to a post-accident alcohol or controlled substances test required under § 382.303, a random alcohol or controlled substances test required under § 382.305, a reasonable suspicion alcohol or controlled substances test required under § 382.307, or a follow-up alcohol or controlled substances test required under § 382.311. No employer shall permit a driver who refuses to submit to such tests to perform or continue to perform safety-sensitive functions.

§ 382.213 Controlled substances use

(a) No driver shall report for duty or remain on duty requiring the performance of safety-sensitive functions when the driver uses any controlled substance, except when the use is pursuant to the instructions of a licensed medical practitioner, as defined in § 382.107 of this part, who has advised the driver that the substance will not adversely affect the driver's ability to safely operate a commercial motor vehicle.

(b) No employer having actual knowledge that a driver has used a controlled substance shall permit the driver to perform or continue to perform a safety-sensitive function.

(c) An employer may require a driver to inform the employer of any therapeutic drug use.

§ 382.215 Controlled substances testing

No driver shall report for duty, remain on duty or perform a safety-sensitive function, if the driver tests positive for controlled substances. No employer having actual knowledge that a driver has tested positive for controlled sub-

stances shall permit the driver to perform or continue to perform safety-sensitive functions.

Subpart C—Tests Required

§ 382.301 Pre-employment testing

(a) Prior to the first time a driver performs safety-sensitive functions for an employer, the driver shall undergo testing for alcohol and controlled substances as a condition prior to being used, unless the employer uses the exception in paragraphs (c) and (d) of this section. No employer shall allow a driver, who the employer intends to hire or use, to perform safety-sensitive functions unless the driver has been administered an alcohol test with a result indicating an alcohol concentration less than 0.04, and has received a controlled substances test result from the MRO indicating a verified negative test result. If a pre-employment alcohol test result under this section indicates an alcohol content of 0.02 or greater but less than 0.04, the provision of § 382.505 shall apply.

(b) *Exception for pre-employment alcohol testing.* An employer is not required to administer an alcohol test required by paragraph (a) of this section if:

(1) The driver has undergone an alcohol test required by this section or the alcohol misuse rule of another DOT agency under part 40 of this title within the previous six months, with a result indicating an alcohol concentration less than 0.04; and

(2) The employer ensures that no prior employer of the driver of whom the employer has knowledge has records of a violation of this part or the alcohol misuse rule of another DOT agency within the previous six months.

(c) *Exception for pre-employment controlled substances testing.* An employer is not required to administer a con-

trolled substances test required by paragraph (a) of this section if:

(1) The driver has participated in a controlled substances testing program that meets the requirements of this part within the previous 30 days; and

(2) While participating in that program, either

(i) Was tested for controlled substances within the past 6 months (from the date of application with the employer) or

(ii) Participated in the random controlled substances testing program for the previous 12 months (from the date of application with the employer); and

(3) The employer ensures that no prior employer of the driver of whom the employer has knowledge has records of a violation of this part or the controlled substances use rule of another DOT agency within the previous six months.

(d)(1) An employer who exercises the exception in either paragraph (b) or (c) of this section shall contact the alcohol and/or controlled substances testing program(s) in which the driver participates or participated and shall obtain and retain from the testing program(s) the following information:

(i) Name(s) and address(es) of the program(s).

(ii) Verification that the driver participates or participated in the program(s).

(iii) Verification that the program(s) conforms to part 40 of this title.

(iv) Verification that the driver is qualified under the rules of this part, including that the driver has not refused to be tested for controlled substances.

(v) The date the driver was last tested for alcohol or controlled substances.

(vi) The results of any tests taken within the previous six months and any other violations of subpart B of this part.

(2) An employer who uses, but does not employ, a driver more than once a year to operate commercial motor vehicles must obtain the information in paragraph (d)(1) of this section at least once every six months. The records prepared under this paragraph shall be maintained in accordance with § 382.401. If the employer cannot verify that the driver is participating in a controlled substances testing program in accordance with this part and part 40, the employer shall conduct a pre-employment alcohol and/or controlled substances test.

(e) Notwithstanding any other provisions of this subpart, all provisions and requirements in this section pertaining to pre-employment testing for alcohol are vacated as of May 1, 1995.

§ 382.303 Post-accident testing

(a) As soon as practicable following an occurrence involving a commercial motor vehicle operating on a public road in commerce, each employer shall test for alcohol and controlled substances each surviving driver:

(1) Who was performing safety-sensitive functions with respect to the vehicle, if the accident involved the loss of human life; or

(2) Who receives a citation under State or local law for a moving traffic violation arising from the accident, if the accident involved:

(i) Bodily injury to any person who, as a result of the injury, immediately receives medical treatment away from the scene of the accident; or

(ii) One or more motor vehicles incurring disabling damage as a result of the accident, requiring the motor vehicle to be

transported away from the scene by a tow truck or other motor vehicle.

* * *

(b)(1) *Alcohol tests*. If a test required by this section is not administered within two hours following the accident, the employer shall prepare and maintain on file a record stating the reasons the test was not promptly administered. If a test required by this section is not administered within eight hours following the accident, the employer shall cease attempts to administer an alcohol test and shall prepare and maintain the same record. Records shall be submitted to the FHWA upon request of the Associate Administrator.

* * *

(4) Controlled substance tests. If a test required by this section is not administered within 32 hours following the accident, the employer shall cease attempts to administer a controlled substances test, and prepare and maintain on file a record stating the reasons the test was not promptly administered. Records shall be submitted to the FHWA upon request of the Associate Administrator.

(c) A driver who is subject to post-accident testing shall remain readily available for such testing or may be deemed by the employer to have refused to submit to testing. Nothing in this section shall be construed to require the delay of necessary medical attention for injured people following an accident or to prohibit a driver from leaving the scene of an accident for the period necessary to obtain assistance in responding to the accident, or to obtain necessary emergency medical care.

(d) An employer shall provide drivers with necessary post-accident information, procedures and instructions, prior to the driver operating a commercial motor vehicle, so that drivers will be able to comply with the requirements of this section.

(e)(1) The results of a breath or blood test for the use of alcohol, conducted by Federal, State, or local officials having independent authority for the test, shall be considered to meet the requirements of this section, provided such tests conform to the applicable Federal, State or local alcohol testing requirements, and that the results of the tests are obtained by the employer.

(2) The results of a urine test for the use of controlled substances, conducted by Federal, State, or local officials having independent authority for the test, shall be considered to meet the requirements of this section, provided such tests conform to the applicable Federal, State or local controlled substances testing requirements, and that the results of the tests are obtained by the employer.

* * *

§ 382.305 Random testing

(a) Every employer shall comply with the requirements of this section. Every driver shall submit to random alcohol and controlled substance testing as required in this section.

(b)(1) Except as provided in paragraphs (c) through (e) of this section, the minimum annual percentage rate for random alcohol testing shall be 25 percent of the average number of driver positions.

(2) Except as provided in paragraphs (f) through (h) of this section, the minimum annual percentage rate for random controlled substances testing shall be 50 percent of the average number of driver positions.

* * *

(f) The FHWA Administrator's decision to increase or decrease the minimum annual percentage rate for controlled substances testing is based on the reported positive rate for the entire industry. All information used for this determina-

tion is drawn from the controlled substances management information system reports required by § 382.403 of this part. In order to ensure reliability of the data, the FHWA Administrator considers the quality and completeness of the reported data, may obtain additional information or reports from employers, and may make appropriate modifications in calculating the industry positive rate. Each year, the FHWA Administrator will publish in the Federal Register the minimum annual percentage rate for random controlled substances testing of drivers. The new minimum annual percentage rate for random controlled substances testing will be applicable starting January 1 of the calendar year following publication.

(g) When the minimum annual percentage rate for random controlled substances testing is 50 percent, the FHWA Administrator may lower this rate to 25 percent of all driver positions if the FHWA Administrator determines that the data received under the reporting requirements of § 382.403 for two consecutive calendar years indicate that the positive rate is less than 1.0 percent. However, after the initial two years of random testing by large employers and the initial first year of testing by small employers under this section, the FHWA Administrator may lower the rate the following calendar year, if the combined positive testing rate is less than 1.0 percent, and if it would be in the interest of safety.

(h) When the minimum annual percentage rate for random controlled substances testing is 25 percent, and the data received under the reporting requirements of § 382.403 for any calendar year indicate that the reported positive rate is equal to or greater than 1.0 percent, the FHWA Administrator will increase the minimum annual percentage rate for random controlled substances testing to 50 percent of all driver positions.

(i) The selection of drivers for random alcohol and controlled substances testing shall be made by a scientifically

valid method, such as a random number table or a computer-based random number generator that is matched with drivers' Social Security numbers, payroll identification numbers, or other comparable identifying numbers. Under the selection process used, each driver shall have an equal chance of being tested each time selections are made.

(j) The employer shall randomly select a sufficient number of drivers for testing during each calendar year to equal an annual rate not less than the minimum annual percentage rate for random alcohol and controlled substances testing determined by the FHWA Administrator. If the employer conducts random testing for alcohol and/or controlled substances through a consortium, the number of drivers to be tested may be calculated for each individual employer or may be based on the total number of drivers covered by the consortium who are subject to random alcohol and/or controlled substances testing at the same minimum annual percentage rate under this part or any DOT alcohol or controlled substances random testing rule.

(k) Each employer shall ensure that random alcohol and controlled substances tests conducted under this part are unannounced and that the dates for administering random alcohol and controlled substances tests are spread reasonably throughout the calendar year.

(l) Each employer shall require that each driver who is notified of selection for random alcohol and/or controlled substances testing proceeds to the test site immediately; provided, however, that if the driver is performing a safety-sensitive function, other than driving a commercial motor vehicle, at the time of notification, the employer shall instead ensure that the driver ceases to perform the safety-sensitive function and proceeds to the testing site as soon as possible.

(m) A driver shall only be tested for alcohol while the driver is performing safety-sensitive functions, just before the

driver is to perform safety-sensitive functions, or just after the driver has ceased performing such functions.

(n) If a given driver is subject to random alcohol or controlled substances testing under the random alcohol or controlled substances testing rules of more than one DOT agency for the same employer, the driver shall be subject to random alcohol and/or controlled substances testing at the annual percentage rate established for the calendar year by the DOT agency regulating more than 50 percent of the driver's function.

(o) If an employer is required to conduct random alcohol or controlled substances testing under the alcohol or controlled substances testing rules of more than one DOT agency, the employer may—

(1) Establish separate pools for random selection, with each pool containing the DOT-covered employees who are subject to testing at the same required minimum annual percentage rate; or

(2) Randomly select such employees for testing at the highest minimum annual percentage rate established for the calendar year by any DOT agency to which the employer is subject.

§ 382.307 Reasonable suspicion testing

(a) An employer shall require a driver to submit to an alcohol test when the employer has reasonable suspicion to believe that the driver has violated the prohibitions of subpart B of this part concerning alcohol. The employer's determination that reasonable suspicion exists to require the driver to undergo an alcohol test must be based on specific, contemporaneous, articulable observations concerning the appearance, behavior, speech or body odors of the driver.

(b) An employer shall require a driver to submit to a controlled substances test when the employer has reasonable

suspicion to believe that the driver has violated the prohibitions of subpart B of this part concerning controlled substances. The employer's determination that reasonable suspicion exists to require the driver to undergo a controlled substances test must be based on specific, contemporaneous, articulable observations concerning the appearance, behavior, speech or body odors of the driver. The observations may include indications of the chronic and withdrawal effects of controlled substances.

(c) The required observations for alcohol and/or controlled substances reasonable suspicion testing shall be made by a supervisor or company official who is trained in accordance with § 382.603 of this part. The person who makes the determination that reasonable suspicion exists to conduct an alcohol test shall not conduct the alcohol test of the driver.

(d) Alcohol testing is authorized by this section only if the observations required by paragraph (a) of this section are made during, just preceding, or just after the period of the work day that the driver is required to be in compliance with this part. A driver may be directed by the employer to only undergo reasonable suspicion testing while the driver is performing safety-sensitive functions, just before the driver is to perform safety-sensitive functions, or just after the driver has ceased performing such functions.

(e)(1) If an alcohol test required by this section is not administered within two hours following the determination under paragraph (a) of this section, the employer shall prepare and maintain on file a record stating the reasons the alcohol test was not promptly administered. If an alcohol test required by this section is not administered within eight hours following the determination under paragraph (a) of this section, the employer shall cease attempts to administer an alcohol test and shall state in the record the reasons for not administering the test.

* * *

(4) Notwithstanding the absence of a reasonable suspicion alcohol test under this section, no driver shall report for duty or remain on duty requiring the performance of safety-sensitive functions while the driver is under the influence of or impaired by alcohol, as shown by the behavioral, speech, and performance indicators of alcohol misuse, nor shall an employer permit the driver to perform or continue to perform safety-sensitive functions, until:

(i) An alcohol test is administered and the driver's alcohol concentration measures less than 0.02; or

(ii) Twenty four hours have elapsed following the determination under paragraph (a) of this section that there is reasonable suspicion to believe that the driver has violated the prohibitions in this part concerning the use of alcohol.

(5) Except as provided in paragraph (e)(2) of this section, no employer shall take any action under this part against a driver based solely on the driver's behavior and appearance, with respect to alcohol use, in the absence of an alcohol test. This does not prohibit an employer with independent authority of this part from taking any action otherwise consistent with law.

(f) A written record shall be made of the observations leading to a controlled substance reasonable suspicion test, and signed by the supervisor or company official who made the observations, within 24 hours of the observed behavior or before the results of the controlled substances test are released, whichever is earlier.

§ 382.307 Return-to-duty testing

(a) Each employer shall ensure that before a driver returns to duty requiring the performance of a safety-sensitive function after engaging in conduct prohibited by subpart B of this part concerning alcohol, the driver shall undergo a return-to-duty alcohol test with a result indicating an alcohol concentration of less than 0.02.

(b) Each employer shall ensure that before a driver returns to duty requiring the performance of a safety-sensitive function after engaging in conduct prohibited by subpart B of this part concerning controlled substances, the driver shall undergo a return-to-duty controlled substances test with a result indicating a verified negative result for controlled substances use.

§ 382.311 Follow-up testing

(a) Following a determination under § 382.605(b) that a driver is in need of assistance in resolving problems associated with alcohol misuse and/or use of controlled substances, each employer shall ensure that the driver is subject to unannounced follow-up alcohol and/or controlled substances testing as directed by a substance abuse professional in accordance with the provisions of § 382.605(c)(2)(ii).

(b) Follow-up alcohol testing shall be conducted only when the driver is performing safety-sensitive functions, just before the driver is to perform safety-sensitive functions, or just after the driver has ceased performing safety-sensitive functions.

Subpart D—Handling Of Test Results, Record Retention, and Confidentiality

* * *

§ 382.413 Inquiries for alcohol and controlled substances information from previous employers

(a)(1) An employer shall, pursuant to the driver's written authorization, inquire about the following information on a driver from the driver's previous employers, during the preceding two years from the date of application, which are maintained by the driver's previous employers under § 382.401(b)(1)(i) through (iii) of this subpart:

(i) Alcohol tests with a result of 0.04 alcohol concentration or greater;

(ii) Verified positive controlled substances test results; and

(iii) Refusals to be tested.

(2) The information obtained from a previous employer may contain any alcohol and drug information the previous employer obtained from other previous employers under paragraph (a)(1) of this section.

(b) If feasible, the information in paragraph (a) of this section must be obtained and reviewed by the employer prior to the first time a driver performs safety-sensitive functions for the employer. If not feasible, the information must be obtained and reviewed as soon as possible, but no later than 14-calendar days after the first time a driver performs safety-sensitive functions for the employer. An employer may not permit a driver to perform safety-sensitive functions after 14 days without having made a good faith effort to obtain the information as soon as possible. If a driver hired or used by the employer ceases performing safety-sensitive functions for the employer before expiration of the 14-day period or before the employer has obtained the information in paragraph (a) of this section, the employer must still make a good faith effort to obtain the information.

(c) An employer must maintain a written, confidential record of the information obtained under paragraph (a) or (f) of this section. If, after making a good faith effort, an employer is unable to obtain the information from a previous employer, a record must be made of the efforts to obtain the information and retained in the driver's qualification file.

(d) The prospective employer must provide to each of the driver's previous employers the driver's specific, written authorization for release of the information in paragraph (a) of this section.

(e) The release of any information under this section may take the form of personal interviews, telephone interviews, letters, or any other method of transmitting information that ensures confidentiality.

(f) The information in paragraph (a) of this section may be provided directly to the prospective employer by the driver, provided the employer assures itself that the information is true and accurate.

(g) An employer may not use a driver to perform safety-sensitive functions if the employer obtains information on a violation of the prohibitions in subpart B of this part by the driver, without obtaining information on subsequent compliance with the referral and rehabilitation requirements of § 382.605 of this part.

(h) Employers need not obtain information under paragraph (a) of this section generated by previous employers prior to the starting dates in § 382.115 of this part.

Subpart E—Consequences for Drivers Engaging in Substance Use-Related Conduct

§ 382.501 Removal from safety-sensitive function

(a) Except as provided in subpart F of this part, no driver shall perform safety-sensitive functions, including driving a commercial motor vehicle, if the driver has engaged in conduct prohibited by subpart B of this part or an alcohol or controlled substances rule of another DOT agency.

(b) No employer shall permit any driver to perform safety-sensitive functions, including driving a commercial motor vehicle, if the employer has determined that the driver has violated this section.

(c) For purposes of this subpart, commercial motor vehicle means a commercial motor vehicle in commerce as defined

in § 382.107, and a commercial motor vehicle in interstate commerce as defined in Part 390 of this subchapter.

§ 382.503 Required evaluation and testing

No driver who has engaged in conduct prohibited by subpart B of this part shall perform safety-sensitive functions, including driving a commercial motor vehicle, unless the driver has met the requirements of § 382.605. No employer shall permit a driver who has engaged in conduct prohibited by subpart B of this part to perform safety-sensitive functions, including driving a commercial motor vehicle unless the driver has met the requirements of § 382.605.

§ 382.505 Other alcohol-related conduct

(a) No driver tested under the provisions of subpart C of this part who is found to have an alcohol concentration of 0.02 or greater but less than 0.04 shall perform or continue to perform safety-sensitive functions for an employer, including driving a commercial motor vehicle, nor shall an employer permit the driver to perform or continue to perform safety-sensitive functions, until the start of the driver's next regularly scheduled duty period, but not less than 24 hours following administration of the test.

(b) Except as provided in paragraph (a) of this section, no employer shall take any action under this part against a driver based solely on test results showing an alcohol concentration less than 0.04. This does not prohibit an employer with authority independent of this part from taking any action otherwise consistent with law.

§ 382.507 Penalties

Any employer or driver who violates the requirements of this part shall be subject to the penalty provisions of 49 U.S.C. section 521(b).

Subpart F—Alcohol Misuse and Controlled Substances Use Information, Training, and Referral

§ 382.601 Employer obligation to promulgate a policy on the misuse of alcohol and use of controlled substances

(a) *General requirements.* Each employer shall provide educational materials that explain the requirements of this part and the employer's policies and procedures with respect to meeting these requirements.

(1) The employer shall ensure that a copy of these materials is distributed to each driver prior to the start of alcohol and controlled substances testing under this part and to each driver subsequently hired or transferred into a position requiring driving a commercial motor vehicle.

(2) Each employer shall provide written notice to representatives of employee organizations of the availability of this information.

(b) *Required content.* The materials to be made available to drivers shall include detailed discussion of at least the following:

(1) The identity of the person designated by the employer to answer driver questions about the materials;

(2) The categories of drivers who are subject to the provisions of this part;

(3) Sufficient information about the safety-sensitive functions performed by those drivers to make clear what period of the work day the driver is required to be in compliance with this part;

(4) Specific information concerning driver conduct that is prohibited by this part;

(5) The circumstances under which a driver will be tested for alcohol and/or controlled substances under this part, including post-accident testing under § 382.303(d);

(6) The procedures that will be used to test for the presence of alcohol and controlled substances, protect the driver and the integrity of the testing processes, safeguard the validity of the test results, and ensure that those results are attributed to the correct driver, including post-accident information, procedures and instructions required by § 382.303(d) of this part;

(7) The requirement that a driver submit to alcohol and controlled substances tests administered in accordance with this part;

(8) An explanation of what constitutes a refusal to submit to an alcohol or controlled substances test and the attendant consequences;

(9) The consequences for drivers found to have violated subpart B of this part, including the requirement that the driver be removed immediately from safety-sensitive functions, and the procedures under § 382.605;

(10) The consequences for drivers found to have an alcohol concentration of 0.02 or greater but less than 0.04;

(11) Information concerning the effects of alcohol and controlled substances use on an individual's health, work, and personal life; signs and symptoms of an alcohol or a controlled substances problem (the driver's or a coworker's); and available methods of intervening when an alcohol or a controlled substances problem is suspected, including confrontation, referral to any employee assistance program and or referral to management.

(c) *Optional provision.* The materials supplied to drivers may also include information on additional employer policies with respect to the use of alcohol or controlled substances,

including any consequences for a driver found to have a specified alcohol or controlled substances level, that are based on the employer's authority independent of this part. Any such additional policies or consequences must be clearly and obviously described as being based on independent authority.

(d) *Certificate of receipt.* Each employer shall ensure that each driver is required to sign a statement certifying that he or she has received a copy of these materials described in this section. Each employer shall maintain the original of the signed certificate and may provide a copy of the certificate to the driver.

§ 382.603 Training for supervisors

Each employer shall ensure that all persons designated to supervise drivers receive at least 60 minutes of training on alcohol misuse and receive at least an additional 60 minutes of training on controlled substances use. The training will be used by the supervisors to determine whether reasonable suspicion exists to require a driver to undergo testing under § 382.307. The training shall include the physical, behavioral, speech, and performance indicators of probable alcohol misuse and use of controlled substances.

§ 382.605 Referral, evaluation, and treatment

(a) Each driver who has engaged in conduct prohibited by subpart B of this part shall be advised by the employer of the resources available to the driver in evaluating and resolving problems associated with the misuse of alcohol and use of controlled substances, including the names, addresses, and telephone numbers of substance abuse professionals and counseling and treatment programs.

(b) Each driver who engages in conduct prohibited by subpart B of this part shall be evaluated by a substance abuse professional who shall determine what assistance, if any, the

employee needs in resolving problems associated with alcohol misuse and controlled substances use.

(c)(1) Before a driver returns to duty requiring the performance of a safety-sensitive function after engaging in conduct prohibited by subpart B of this part, the driver shall undergo a return-to-duty alcohol test with a result indicating an alcohol concentration of less than 0.02 if the conduct involved alcohol, or a controlled substances test with a verified negative result if the conduct involved a controlled substance.

(2) In addition, each driver identified as needing assistance in resolving problems associated with alcohol misuse or controlled substances use,

(i) Shall be evaluated by a substance abuse professional to determine that the driver has properly followed any rehabilitation program prescribed under paragraph (b) of this section, and

(ii) Shall be subject to unannounced follow-up alcohol and controlled substances tests administered by the employer following the driver's return to duty. The number and frequency of such follow-up testing shall be as directed by the substance abuse professional, and consist of at least six tests in the first 12 months following the driver's return to duty. The employer may direct the driver to undergo return-to-duty and follow-up testing for both alcohol and controlled substances, if the substance abuse professional determines that return-to-duty and follow-up testing for both alcohol and controlled substances is necessary for that particular driver. Any such testing shall be performed in accordance with the requirements of 49 CFR part 40. Follow-up testing shall not exceed 60 months from the date of the driver's return to duty. The substance abuse professional may terminate the requirement for follow-up testing at any time after the first six tests have been administered, if the substance abuse professional determines that such testing is no longer necessary.

(d) Evaluation and rehabilitation may be provided by the employer, by a substance abuse professional under contract with the employer, or by a substance abuse professional not affiliated with the employer. The choice of substance abuse professional and assignment of costs shall be made in accordance with employer/driver agreements and employer policies.

(e) The employer shall ensure that a substance abuse professional who determines that a driver requires assistance in resolving problems with alcohol misuse or controlled substances use does not refer the driver to the substance abuse professional's private practice or to a person or organization from which the substance abuse professional receives remuneration or in which the substance abuse professional has a financial interest. This paragraph does not prohibit a substance abuse professional from referring a driver for assistance provided through—

(1) A public agency, such as a State, county, or municipality;

(2) The employer or a person under contract to provide treatment for alcohol or controlled substance problems on behalf of the employer;

(3) The sole source of therapeutically appropriate treatment under the driver's health insurance program; or

(4) The sole source of therapeutically appropriate treatment reasonably accessible to the driver.

(f) The requirements of this section with respect to referral, evaluation and rehabilitation do not apply to applicants who refuse to submit to a pre-employment alcohol or controlled substances test or who have a pre-employment alcohol test with a result indicating an alcohol concentration of 0.04 or greater or a controlled substances test with a verified positive test result.
